

Oxford Schools

Oxford is a small town that is located in Michigan. Oxfords education system is also small. There are 5 elementary schools, 2 high schools but only **1** middle school named *Oxford Middle School* . If there would be more people moving to Oxford then we are going to need to build a new middle school. This will give the families more options for their middle schoolers and the other middle school wouldnt need to be as packed as it used to be.
